

Dough Processing Table

The dough processing and weighing table allows for effortless and consistent chunking of dough out of the mixer. It functions in conjunction with a lift/tiltable mixer or bowl lift. The main advantage of this equipment is that the operator works at table height and will not suffer from any effort to cut dough pieces out of the mixer and carrying them on a work table.

The model

Model: DOUGH PROCESSING TABLE 2 METERS

Features

- Stainless steel with Teflon coating hopper
- Dough capacity: 185 kg with standard hopper
- Washable conveyor belt with S/S alligator lace
- Electrical outlet for scale or auxiliary equipment
- Flour tray at the end of conveyor
- Opening and closing of the hopper with crank handle
- Knives positioning indicators
- Variable speed on conveyor
- Left or right side controls
- Adjustable knives in stainless steel

- Protected oversized conveyor gear motor
- Anti corrosion treatment on all mechanical parts
- Epoxy painted covers and frame, with stainless steel option
- Welded steel frame
- Independent motorization and controls
- Machine equipped with four casters with brakes

Operation

When the hopper is full of dough, switch on conveyor and open the knives

The dough starts to flow down by gravity.

The opening of the knives is adjusted in function of the type of dough and the desired output.

The machine is suitable for all types of doughs.

Once the conveyor is loaded with dough turn the conveyor off and close the knives.

Repeat until all the dough is processed

Ergonomics / Maintenance

- Noise level less than 70 dB
- All moving parts protected by covers for maximum safety
- Simple and easy cleaning of machine as well as the replacement of the belt

Options

- Three step stepladder
- Stainless steel covers

Model	DOUGH PROCESSING TABLE
Maximum capacity (kg)	185
Speed	Variable speed
ELECTRICALS	
Power (kW)	0,12
Voltage (V)	230V single phase + G
Frequency (Hz)	50/60
Amperage (A)	8
DIMENSIONS	
Width (mm)	1125 (+ 750 handle)
Height table(mm)	900
Height table + hopper (mm)	1600
Depth (mm)	2000
Weight (kg)	330
